Key Features: Organize your tabs or use the power of wildfire to burn them all Close tabs with a single click Drag and drop tabs to a different order Create groups Recent tabs Highlight tabs Allow Aerys to manage your tabs or close them with a single click If you want your S8 to be as fast as its predecessor, you'll want to learn how to make some tweaks to your phone that will help speed up its performance. Android is known for its customizable nature, which means that you can definitely make your phone experience better by working on these aspects. Before we get started, it is important to mention that there are already tons of other ways to make your S8 faster and more responsive besides the ones in this article. You can go to the Play Store and download some of the best apps available today, like Quick Panel. If you do not want to clutter your phone with apps, you can always use one of the themes from the Play Store. How to speed up your S8 with these tips 1. Bloatware and bad apps – Android is a very customizable platform, but that also means that there are thousands of apps that you will never use. Now, this is where Android suffers most because so many people put all of their time and energy into making great apps, but those that are the best never get noticed or reach the market. Not only that, but there are some apps that are not developed by the OEM that would take up a ton of space and slow your phone down. How can you tell whether or not it's a bad app? You can run their APK to see if it is developed by the OEM or not. If not, you will know that you have been wasting your time using the app. 2. Disable unused apps – Now, one of the most important things you can do to speed up your phone is to disable all of the apps that you do not use. Fortunately, there are tons of apps that you can uninstall that are not developed by the OEM, so you can totally get rid of them if you want to make your phone faster. 3. Use the RAM sparingly – Although your

performance as the Snapdragon 820. Apart from the processor, the G5 series comes with a slim body and a glass back which looks elegant. With such a design, the Moto G5 will be the most comfortable Moto G to date. The handset comes with a 5.2-inch Full HD display with a resolution of 1080 x 1920 pixels. Although the phone has a 5.2-inch screen, it does not feel small in the hand because of the nice finish on the back and the glass design. The phone comes in two storage options: 3 GB RAM and 32 GB internal storage and 4 GB RAM with 64 GB internal storage. The Moto G5 series also has dual camera and the first sensor is a 12 MP camera with f/2.2 aperture and the second sensor is a 5 MP camera with f/2.2 aperture. The dual cameras are used to take portrait and landscape pictures which are amazing. The 12 MP front camera is perfect for selfies and the 5 MP front camera is perfect for video calls. The Moto G5 series has an excellent battery with 2,620 mAh capacity. One can achieve up to 2 days

Tab Manager by Aerys II Targaryen is an extension that helps you manage multiple tabs efficiently. It helps you organize and close the tabs which you use frequently. What's new in this version Fixed issues with drag and drop tabs New design Some small changes. The easiest way to use the extension is simply to click on the extension icon and the menu will automatically open. You can close the tabs in the tab manager using the keyboard shortcuts Ctrl+W for closing the tabs and Ctrl+U for closing all the tabs. If you do not want to use the keyboard shortcuts, you can also use the mouse to close the tabs. To move an entire group of tabs, simply drag the group header. The extension is now in french language. Aerys - Tab Manager extension is available for free in the Chrome Web Store. Chrome, Google's celebrated web browser, is now working with the cloud storage service, Google Drive. Now, you can access your photos, videos and other files easily from any Chrome tab. The latest version of Chrome supports file uploads and Google Drive is going to make it easier for you to upload your files to the cloud. The new Cloud Sync feature lets you access all your files and folders from anywhere in the world. It will be helpful for users who don't have much free storage space on their computers. All you have to do is to log in to Google Drive and click on "Sync this folder" from the "Connecting folder" drop-down menu. Now, users can also bookmark images and videos from their browsers directly to the cloud. This means that if you want to watch a movie from your computer, you need not worry about downloading the video. All you have to do is to click on the option "Keep this video in the cloud" and select the storage location from the drop-down menu. If you are about to upload images from your computer to the cloud, select the option "Add new photos" and choose an appropriate folder to store the images. Security professionals will appreciate the new features. You will be able to see what other people are trying to upload on your Google Drive and stop them from accessing the cloud in case they are trying to upload malware or damaging files. Google is also providing a two-factor authentication (2FA) feature for those who want to make their services more secure. The 2FA will be enabled by default and will be easy to use.
